Projects

- **Tin-Dog**
  A beautiful website for dog owners where they can find a partner for their dogs (very similar to tinder), reviews, prices, and also a premium account available, etc

- **Simon Game**
  A very famous game to check the short-term memory skill, so mainly it creates a series of tones and lights and requires a user to repeat the sequence. If the user succeeds, the series becomes progressively longer, and once the user fails game is over

- **Weather Report**
  By using the API utility from OpenWeatherMap for getting the live Weather data (which provides information about the weather and climate) by entering the city name from the user
